# BLUEBIRD GARDEN

Pattern No. XS18163

## REGARDING THE WING & TAIL VARIATION ON THE BLUEBIRD GARDEN PATTERN CHART

During the creative process, the pattern chart and sample were prepared as two variations. The variation was only in the wing and tail of the bluebird. The colors for these areas were swapped. The early-released patterns included the original chart with the updated front & back cover photos. We've now married the updated chart and cover photos to match.

Feel free to use either variation OR stitch one of each variation as they both look great!

*Below is the portion of the chart that has been updated to reflect the photos on the front & back cover of the pattern:*
